

# FRAUD FIGHTER | Mobile ID Document Authentication

Virginia Bankers Association

The **Virginia Bankers Association** has arranged for special pricing on UVeritech's mobile / remote identity document authentication solution. The *PALIDIN WebID* and *PALIDIN.M* products enable ID document scans to be taken on a smartphone or tablet. Photos / scans are taken of the front and back of a driver license, along with a "selfie" of the customer to ensure live presence.

The *PALIDIN* mobile authentication solution is ideal for customer-not-present transactions such as opening an account or applying for a loan remotely. Other key use cases include mobile retail POS, buying online & curb pickup, mobile access control at events, as well as validating authorized customer pick ups / drop offs of rental cars.

The *PALIDIN* remote scans are priced on a per-scan basis, depending on total annual scans purchased upfront. Call us to discuss your specific use case, as mobile customer ID authentications can be priced as low as **\$2.00 per scan.**

*\*Plus tax (where applicable)*
